

Acme Support Billing Guidelines

This guide is fictional sample content for the Acme Support portfolio project. It describes invoicing and payment rules.

Invoice schedule

Invoices are issued on the same calendar day each month.

Annual contracts are invoiced once at the start of the term.

Payment is due within 14 days of the invoice date.

Late payment

A late payment reminder is sent 3 days after the due date.

After 14 days overdue the subscription is paused.

Data is retained for 60 days while a subscription is paused.

Credits and adjustments

Prorated credits appear on the next invoice automatically.

Manual credits require a support request and approval.

Credits expire 12 months after they are issued.
